

Fired by Imagination
Molded to Perfection

In just **40 years**, PGP Glass has become the industry leader in Specialty Glass for Spirits and Perfumery.

PGP Glass began with a clear vision: “To create glass packaging that exceeds mere functionality.” Specialty Glass manufacturing is an art form, as the bottles that are produced are a canvas for the customers to portray their brands, as well as a vessel to contain their precious content. Today, with over three decades of experience, PGP Glass has evolved into a leader in the design, production, and decoration of glass packaging for the Cosmetics & Perfumery, Specialty Liquor & Food and Pharmaceutical industries.

Purpose Statement:

Enhance the value of the customer brands by providing Specialty glass packaging produced in an increasingly sustainable environment.

PGP Glass crafts brilliance through leading edge infrastructure

3 Manufacturing Facilities

12 Furnaces

70 Production Lines

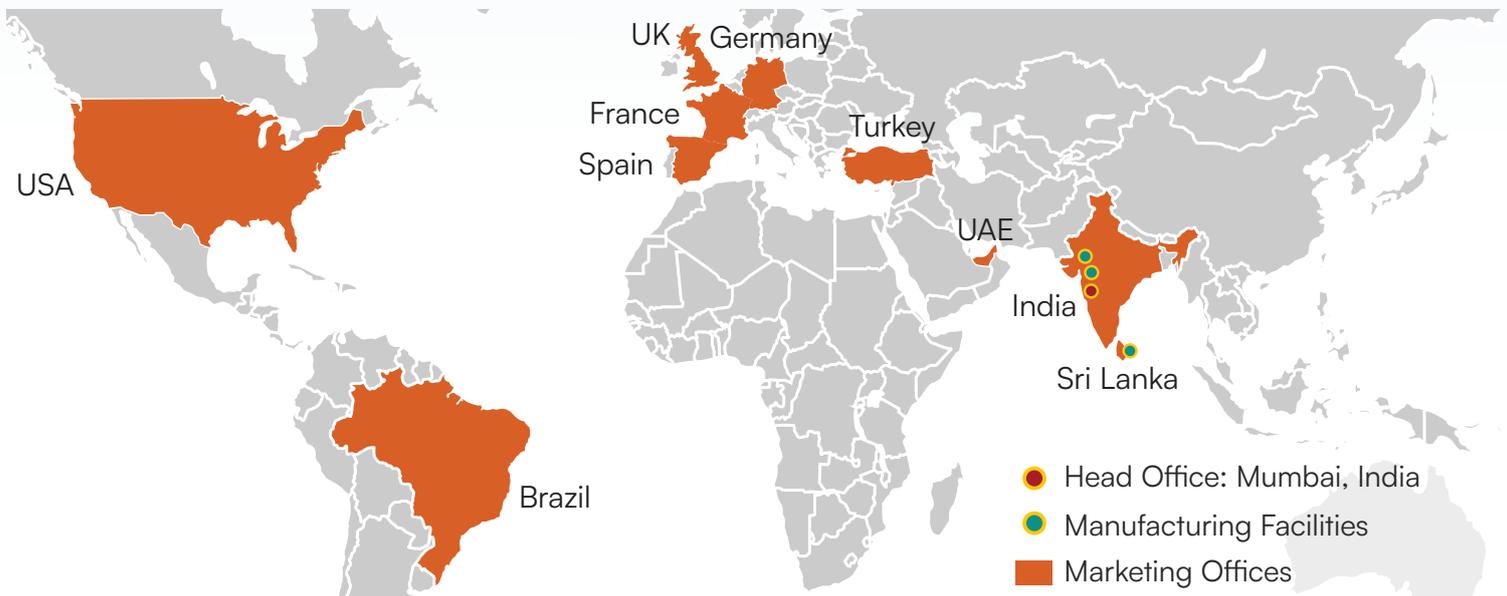

1,730 Tonnes/Day

50 Countries in Network

PGP Glass believes in consistently investing back into the company, which has established PGP as one of the world's fastest growing Specialty Glass manufacturers.

Global Footprint

Made in India for the World

Container Manufacturing Facilities

Jambusar, India

4 Furnaces | 870 TPD Capacity | Pharma and Specialty Food & Beverage Focused

- Expertise in both ultra-white flint for premium spirits and amber for pharmaceuticals and F&B.
- New 250 TPD furnace with dedicated lines for thick-based (+25mm) and ultra-premium bottles.
- World's largest amber glass production (265 TPD) for Pharma, Food & Beverage.
- Cutting-edge technology like Lambda Control and Real-Time Manufacturing Insights.

Horana, Sri Lanka

1 Furnaces | 300 TPD Capacity | Specialty Food & Beverage Focused

- Emphasis on PCR glass & color customization for premium spirits.
- Two lines having frit feeder color capabilities on a 300 TPD furnace.
- Online inspection & automatic packing for discerning markets.
- 3 MW solar power + eco-friendly inks reduce carbon footprint by 2,352 tons.

Kosamba, India

7 Furnaces | 560 TPD Capacity | Cosmetics & Perfumery Focused

- Expertise in ultra-white flint & borosilicate glass for premium packaging.
- Rotary machines for thick-based (+25mm) and luxury bottles.
- EcoVadis Platinum Certified.
- Added 7th furnace (120 TPD) with green efficiency.

Design and Decoration

A plain glass bottle can be transformed into a unique work of art through an eye for beauty and expertise in decoration. As glass packaging experts, PGP Glass offers a wide range of in-house decoration services. A strategic 30,000 square foot Greenfield Expansion undertaken in 2023 for decoration of Specialty Liquor bottles.

Spray Coating: 6 Automatic lines capable of full or partial organic lacquering in gloss to matte finishes. A new spray coating line with hybrid IR and a natural gas curing system, capable of organically spraying bottles of multiple sizes & shapes in multiple colors, full or partial effects and shiny to matte finishes

Printing: +30 Semi & Automatic machines for Screen & Pad Printing in ceramic & organic on flint and organic coated bottles. Kammann K-15 machines for ceramic and UV organic screen printing up to 5 colors in a single pass on bottles of multiple sizes & shapes

Hot Foil Stamping: 9 Semi & Automatic HFS machines for application of gold, silver and other foils on flint and organic coated bottles

Metallization: Vacuum metallization with UV cured topcoat

Acid Etching: Automatic Acid Etching machine & Effluent Treatment Plant facility

Additional Capabilities: Decal & Label Application, Accessory Gluing, PVC Coating, Laser Etching, Grinding and Polishing, Lip Treatment, Sleeving, Digital Printing

Consistent expansion projects in process to service the growing demand

Design and Decoration

PGP Glass's in-house Design Center works closely with our customers by blending creativity and technical expertise with current market trends to deliver unique, brand aligned design solutions. We use the latest technology to guide customers from product conception up through the finished product.

Concept Creation to Final Product Execution

At the Corporate Design Center, we continuously track from the latest trends in Specialty Liquor design and incorporate best practices into our glass packaging solutions.

As a result, our solutions are fresh, creative, and contemporary.

We also design numerous creative decoration for our customers on our containers to complete the entire concept of the product offering.

Our Corporate Design Center continuously focusses on innovation and development. We offer additional design support in the form of Point-Of-Sale design, Graphic design, Merchandising concepts, Exhibition design etc.

We are proud to say that we have the world's largest portfolio of in-house designs in Specialty Packaging, Cosmetics & Perfumery. Our Design Center is constantly creating more than 200 new design concepts in various categories every year.

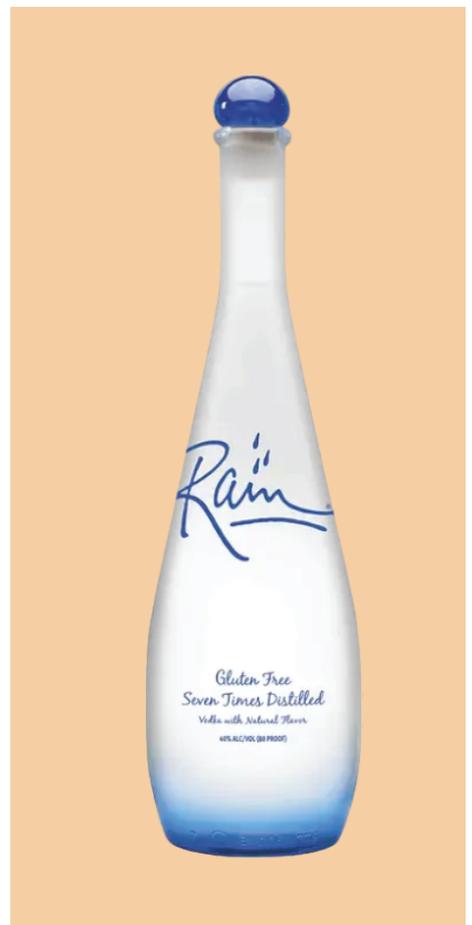

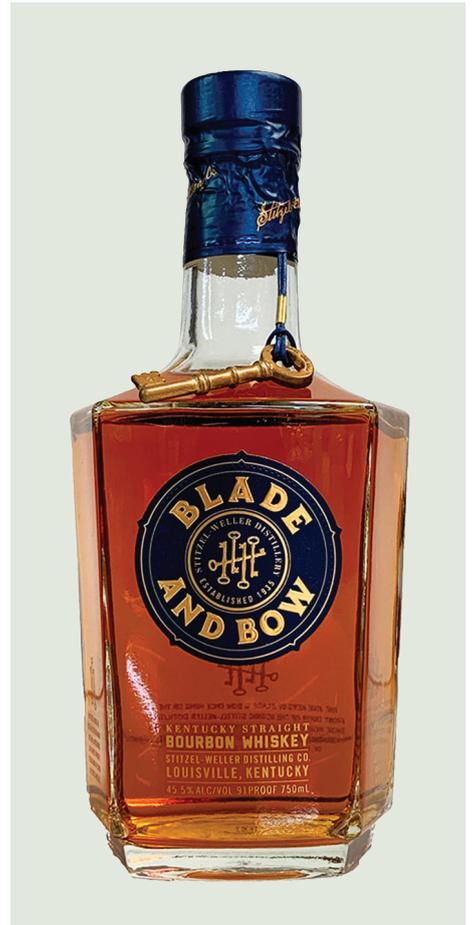

Packaging flexibility, design, and secure transport

PGP Glass provides Specialty Liquor customers with diverse packaging solutions, ranging from bulk with dividers to customer specific re-shipper cartons available in six and twelve packs. These cartons are available in direct print on kraft/white board or in litho and are engineered to ensure safe and secure transportation of both bare and decorated containers to customer locations all over the world. These packaging solutions are comprehensive and high-quality, but also 100% sustainable. Additionally, lightweight, dust-free, and food-grade packaging are offered to align with the stringent International Safety Standards.

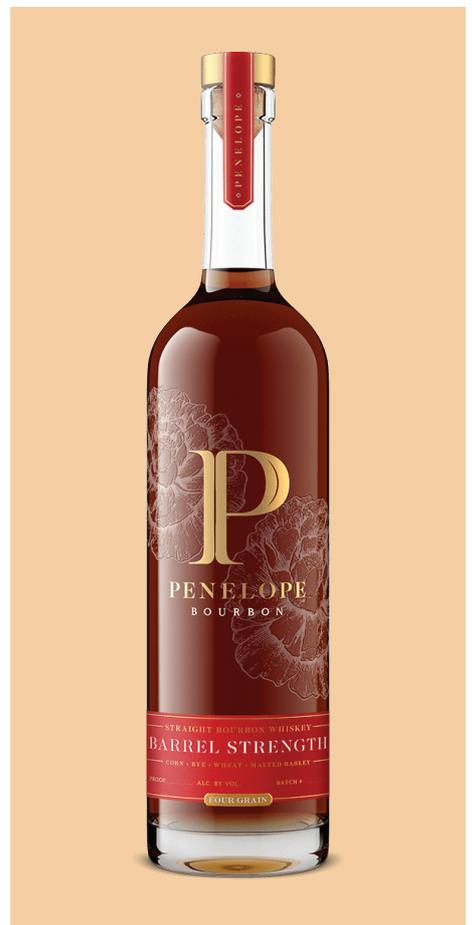

Our unwavering commitment to perfection is guaranteed to meet your expectations.

PGP Glass Specialty

The flourishing specialty liquor market requires innovation, agility, and sustainability. PGP Glass is globally positioned to be the perfect reliable partner, providing tailored solutions to propel a brand's success.

Conquering the Specialty Liquor Market: PGP an Ideal Glass Partner for Growth, offering:

- An extensive range of proprietary and industry standard stock designs
- Experienced design and product development team for custom designs
- Quickness to market through our in-house mold manufacturing
- Flexible packaging options including stock or custom re-shipper packaging
- Thick base or sustainable eco-base bottle, ranging from 50 ml to 1.75 liter, in ultra-white flint, amber and colour
- Internal and customer specific AQLs through our stringent quality control processes including automatic inspection machinery
- Wide range of decoration capabilities

Enhance your brand's offerings with our premium standard stock bottles, showcasing a variety of exclusive and patented designs tailored for each type of spirit, available via our dedicated sales team or through our network distribution partners.

We take pride in crafting the perfect package to elevate brands in the thriving specialty liquor market.
