WELCOME

In the backdrop of a volatile and uncertain global business environment, we at Piramal Glass continue

to persevere doggedly towards our goal of leadership in the Premium and Specialty Glass Packaging.

Some of the most reputed brands have gained from our skills in the field of premium cosmetics, skin-care, and perfumery bottles. To further enhance our capabilities, we have recently made new investments to upgrade our "premium perfume bottle" furnace and decoration facility in Kosamba, India. You can read more about it in this newsletter.

Vijay Shah,
Director, Piramal Glass Limited

Piramal Glass, with a steady annual growth of over 15 percent, is becoming the preferred glass packaging vendor for top Cosmetics, Perfumery, and Skin-care brands in the world.

Piramal Glass Limited, is a specialist in design, production, and decoration of premium glass packaging for Cosmetics-Perfumery, Skin-care, Food, Beverages, and Pharmaceutical industry.

We offer the complete end-to-end glass packaging solutions in over 50 countries under the globally recognized brand name of "Piramal Glass." Our manufacturing facilities are spread across India, Sri Lanka, and USA with an overall capacity of 1375 tons per day (TPD).

In the Cosmetics-Perfumery and Skin-care segments we have the world's second largest dedicated production capacity of 560 TPD.

Our global customers demand utmost quality with premium finishing and decoration to ensure that their aesthetically appealing glass packaging can emphasize the product's uniqueness, quality, and exclusiveness.

In the upcoming LuxePack and Cosmoprof exhibitions, we have got a whole list of new products and developments to showcase. The below Piramal Glass products are just a small glimpse of it.

PI GIVENCHY EAU DE TOILETTE

CARVEN LE PARFUM
JACQUES BOGART

GLOBAL LAUNCH WITH THE BOGART GROUP

Recently, the Bogart Group, displayed their *Carven Le Parfum Femme* brand at the French department store, - The Galeries Lafayette (Boulevard Haussmann) in Paris. It was also a proud moment for us, as we have designed and manufactured the perfume bottles for *Carven Le Parfum Femme* and collaborated with the Bogart group in the global product launch. It is a great example of how we can resemble sublime concepts in glass packaging.

Revamped and upgraded premium perfume bottle facility

To satisfy the stringent customer requirements, all stages of our manufacturing process have to reflect the state-of-the-art capabilities. Hence we are today strongly focusing on maximizing the process stability and consistent quality assurance. During the last twelve months we have invested around USD 85 million to modernize our facilities with the state-of-the-art infrastructure. This includes expansion and upgradation of one of our “premium perfume bottle” furnace from 35 TPD to 60 TPD. This revamped facility with four lines provides the best in class configuration in terms of technology, design, and layout to serve our global Cosmetics-Perfumery and Skin-care customer requirements.

Some of the key features of this 60 TPD facility are:

- Straight conveyors to handle complex bottle shapes
- Air-conditioned dust-free cold-end area
- Energy efficient furnace built using European refractory for all glass contact areas
- Entire batch-path is lined with stainless steel, thus preserving glass clarity and avoiding contamination
- The IS machines are from Bottero SpA, Italy with latest offerings including Servo mechanisms.
- Four side fire-polishing for finer surface finish
- Stainless Steel mould for superior skin finish
- Upgraded online automatic inspection systems

We are also upgrading and doubling the capacity of our Decoration Facility at Kosamba, India with an investment of around USD 4 million, so that we can continue to satisfy our customers’ requirements and deliver complex decoration requests in perfect quality. Today we have dedicated facilities for premium glass decoration solutions such as printing, hot-foil stamping, coating, frosting, decal, fitment/ gluing, and metallization.

Piramal Glass is going digital

At Piramal Glass, we have always believed in making investments in future-ready initiatives. With the evolution of technology and the advent of digital, the global business dynamics is fast changing. We are also quickly adapting to this new medium and focusing on developing our digital strategy. In this regards, we are investing in new technologies like Internet of Things, Cloud, Analytics, and various collaborative tools like HRMS, Workflows, and Crowd sourcing across our facilities and functions.
